BOOK SYNOPSIS

The four works collected in this volume reveal the fascinating preoccupations of the German Romantic movement, which revelled in the inexplicable, the uncanny and the unknown and, especially, the mysterious world of the fairy tale. Goethes richly imaginative Fairy Tale (1795) depicts an ethereal underground realm and the marriage of a beautiful man and woman, whose union heralds a new age. In Tiecks Eckbert the Fair (1797) two outsiders seek refuge in the solitude of dark woods to conceal their incestuous passion from the world, while in Fouques Undine (1811) a water nymph falls in love and acquires a soul, and so discovers the reality of human suffering. And Brentanos Tale of Honest Casper and Fair Annie (1817) portrays the tragedy of a young couple, destroyed by a false sense of honour and pride.
